Re: Authorization for Change under Ground Water Certificate No. 2515-A

Dear Mr. Dugger:

In response to your request, you are hereby granted an extension to complete construction for the reason(s) below:

Complete construction of the described project.

The new deadline to submit your *Construction Notice* is November 1, 2010. The following provisions shall apply:

- Metering devices shall be installed prior to irrigation season in 2010 on all well sources.
 Weekly metering shall be taken in both instantaneous and annual use for each of the wells described. These metering records shall be submitted annually during development of this authorization. Please identify the change authorization when submitting the information.
- The permittee is required to notify the department of the type and size of each meter installed.
- The change authorization describes three wells. The request for extension describes 6 wells and the intent to purchase and add additional wells. Prior to submittal of information and review of the locations and well construction, it is unknown if the proposed wells or well sites can be approved for use.
- The permitee shall provide an aerial photo identifying the location of the wells currently in use or constructed and GPS coordinates of these well sites. We will evaluate these locations to see if additional documentation is required such as Showing of Compliance (RCW 90.44.100) or the need for additional applications for change to correct the well locations.

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the "date of receipt" of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). "Date of receipt" is defined at RCW 43.21B.001(2).
